THE HYDRONICS CREW INSTALLS INLINE AND SIDE STREAM FILTRATION SYSTEMS ON CLOSED-LOOP HOT WATER SYSTEMS ON CAMPUS.

SERVICES

- Test, size, and treat hot water heating systems
- Facilitate chemical balance in the system
- Install inline Air Dirt Separators, and Side Stream bag filters

The hydronics crew installs Air Dirt Separators and Side Stream bag filters which removes dirt particles from the heating system to allow proper flow and heating throughout the building. This filtration reduces the amount of equipment corrosion and allows the valves and heating coils to work more efficiently.
