

Foellinger Auditorium (0007)

Auditorium Balcony

Building Information

Year Built: 1907

Project Area Primary Users: General assign.

Affected Rooms: 106 (Auditorium)

Room Capacity: 1,608 seats

Narrative

This project replaced seating on the upper balcony of Foellinger Auditorium to comply with modern standards. In addition, the balcony tiers were revised and reconstructed to accommodate contemporary seating and layout requirements. Row spacing is tight.

The project has completed the seating replacement in the auditorium.
