How to Clean the EMS16 Face Shield

1. Detach the Velcro™ Buttons
2. Remove the Foam Headpiece

3. While wearing gloves, carefully wipe the inside, followed by the outside of the face shield using a wipe or clean cloth saturated with EPA-registered hospital disinfectant solution.

4. Wipe the outside of face shield with clean water or alcohol to remove residue and allow to fully dry.

5. Remove gloves and perform proper hand hygiene.

For best results, rub a thin layer of liquid soap on inside of shield with tissue to further prevent fogging. Please use your preferred disinfectants to hand wash each piece.
COVID-19 Face Shield Guidelines

• This forehead-mounted face shield may be used temporarily instead of a face covering while you are working in the following role(s).
  • Classroom Instructor
  • Clinician
  • Presenter

• Social distancing of more than six feet must be maintained.

• The EMS16 may not be worn into a hazardous environment where personal protective equipment is required.

• A face covering should be worn when traveling to and from the place of use of this face shield.

• Do not share your face shield with others.

THE POWER OF I.
